SUMMARY

Computer Science graduate with experience in software, game, and web development, aspiring to become a full-stack developer. Seeking entry-level opportunities to contribute to software and web development, while remaining open to other technology-focused roles. Strong foundation in problem-solving and system design, with a focus on improving through hands-on development and collaboration.

PROJECTS

Game-Based WISP Training Simulator & Companion Web App

Unity, C#, HTML, CSS, JavaScript, Firebase

- Implemented gameplay systems in C#, including objective tracking, interaction mechanics, and scoring logic
- Built a modular objective system to guide players through installation tasks step-by-step
- Developed the companion web application using JavaScript, HTML, CSS, and Firebase
- Implemented user authentication and progress tracking using Firebase Authentication and Firestore
- Deployed the web application using Firebase Hosting
- Designed interactive minigames simulating real technician tasks such as ethernet cable preparation

WORK EXPERIENCE

IT Intern

City Government of Imus

December 2025 – February 2026

- Assisted with setup and configuration of office computers and workstations
- Troubleshoot hardware and system issues for office equipment
- Organized administrative records using Microsoft Excel for documentation and reporting

EDUCATION

Bachelor of Science in Computer Science

National College of Science and Technology

August 2021 – April 2026

TECHNICAL SKILLS

Programming Languages – C#, JavaScript, Python

Web Development – HTML, CSS, React, Firebase (Firestore, Authentication, Hosting)

Tools & Technologies – Unity Engine, Git/Version Control, VS Code

Other Technical Skills – Hardware Troubleshooting, Basic Network Troubleshooting
